CRISTA HAZELL

“It’s all about the students, getting them involved and showing them the steps to success”

“If we are noticed and acknowledged, praised and rewarded, then we grow, we develop, we, dare I say it, soften a little” - There is Another Way

We know that Modern Foreign Languages is a special case which is why we are delighted to welcome Crista to the team.

Not only is she an experienced head of department and one of the UK’s ‘Top 100 People to Follow on Twitter’, she is also an ‘outstanding’ languages teacher.

‘I have always wanted to be an MFL teacher, ever since that first French lesson in middle school’, sums up her passion for the subject!

With many years’ experience at leadership level in a number of schools, Crista’s heart is still clearly in the classroom.

Here, one thing that she does really well, and which is why she has so much to share with non-MFL teachers too, is create the ideal learning environment - busy, active, welcoming, challenging and where children not only make progress but see the progress they make.

Feedback from recent clients include:

“This session has awakened our yearning to get down and deep with deep learning, so thank you to Crista who has shown what it is to embrace a world constantly turning”

In the words of one of her students on ratemyteachers.com - ‘Legend!’
